

Logistics (LOG) IT Services

Who We Are

In December 2020, the Program Executive Office for Manpower, Logistics and Business Solutions (PEO MLB) assumed management of the Naval logistics (LOG) IT Digital Transformation and created the LOG IT Services portfolio. The Naval LOG IT Digital Transformation supports the Chief of Naval Operation's (CNO) Navigation Plan and vision for Naval LOG transformation across the Department of Navy (DON). LOG IT transformation is a capability differentiator, critical to competing with adversaries and winning the high-end fight. Further, it enables our Naval platforms, weapon systems and associated infrastructure, to be more ready, agile, efficient and cost effective.

PEO MLB's LOG IT Services provides the required IT services to keep Naval platforms and weapons systems operationally available by optimizing and modernizing more than 200 legacy LOG IT systems.

Value to the DON

- LOG IT Digital Transformation is a critical enabler to increasing Naval platform and weapon system operational availability, and decreasing Operating and Support (O&S) cost.
- LOG IT's approximately \$1 billion annual budget enables:
 - Enhanced readiness-based decision support
 - Optimized maintenance planning, scheduling and execution
 - Digital thread of data tied to a weapon system
 - Utilization of 3D product models for augmented reality and virtual reality
 - Transformation and improvement of failure and maintenance data
 - Prediction of weapon system failures in advance

Our Portfolio

- **Naval Product Lifecycle Management (N-PLM)** manages weapon system technical data (configuration, bill of material, 3D models, drawings and maintenance procedures)
- **Naval Maintenance Repair & Overhaul (N-MRO)** plans, predicts, schedules and executes maintenance at the organizational, intermediate and depot levels
- **Naval Supply Chain Management (N-SCM)** plans, procures, receives, stores, distributes, disposes and manages material, goods and services across all commodities and communities
- **Integration and Infrastructure (I & I)** provides integration across N-MRO, N-SCM (including Navy ERP) and N-PLM for both modernized and legacy systems to support data exchange capabilities and analytics.
